Basic Wagering Strategy: The TrackMaster F.A.S.T. (Front-runner, Alternator, Stalker, Trailer) Sheets are designed to give the user the edge one needs to win at the track. This sophisticated program assesses each horse's probability of winning and produces acceptable (fair) odds for the top contenders. As post time nears, if only one contender has odds equal to or higher than its acceptable odds (an overlay), then wager on the horse to win. If there are two overlays in a given race, wager on both horses to win. If there are three or more overlays in a given race, bet on the overlay with the largest (fair odds)/(actual odds) ratio.

Exotic players: For exactas and trifectas, box the overlays and play the overlays with the other contenders. For serial exotics (Daily Double, Pick 3, etc.), key the contenders that are overlaid versus the morning line and play them with the other top contenders.
